

DIVISION BEST PAPER AWARD

Rating Form

Paper title _____

This paper has been evaluated and rated using the following scale and categories:

Superior-5; Excellent-4; Good-3; Fair-2; Poor-1

A. SIGNIFICANCE OF CONTRIBUTION

RATINGS

Credit in this category is awarded for a paper that represents a significant contribution to the water field. A paper rated high in this category should represent new information or a breakthrough in understanding of a topic.

B. IMPORTANCE OF SUBJECT OR PROBLEM

Credit in this category is awarded to a paper that presents information that is important to the water industry. A paper rated high in this category should present information that contributes to the user's application or knowledge and results in increased effectiveness of a process or system. The reference value of the article (e.g., how often it would serve as a source of information for others) should be considered in this rating.

C. TIMELINESS OF PRESENTATION

Credit in this category is awarded for the currency or contemporary aspects of the presentation. Generally this category would apply to new technology, operating or management practices, or issues that are influencing the water industry.

D. QUALITY OF PRESENTATION

This category would reward literary value, primarily communicability, and clarity of presentation. Good presentation adds value in making the work more widely used.
